to see a power point presentation on what the Maselli Company produces and services. The precision measurement equipment is made in Italy, where the company is based.

Coca-Cola and wineries are some of their biggest customers in this area. Large auger-type equipment goes into grape truck loads in various areas of the load and measure the sugar levels. Grape prices are paid to the farmers according to sugar content of each load. Did I get that right?

We also saw some of the equipment and were told how it works. Personally, I found out why I don't drink cokes! Wow! The sugar that is in each drink is amazing. Does wine have that much sugar in it?

We all had a great time, John! Thanks to you, Bev and your crew!

## **Meeting Happenings**

Our August 19<sup>th</sup> meeting was held off-site at John Dierking's company, Maselli Measurements, on Hammer and Lorraine Lanes.

President Russ brought up the subject of Gary Baughman's trip to Spain and Portugal, and let him know that he would not be forgotten at the next meeting! He left the bell in the car, so couldn't ring it.

Richard Rogers let us know he had a special birthday and we all sang "Happy Birthday" to him. Fine to also be given with Gary's.

After having a very nice continental breakfast and John and Beverly's welcome, we split into two groups for a tour of the office and
